

GAME DAY

2009-2010

Thanks to teachers that always provided the requested information prior to a "Game Day" visit. It was helpful as I planned my "Game Day" schedules. The days have proven to be valuable, way past my intended expectations. Not only have I observed teachers teaching our curriculum, I have watched in many examples, our content from beginning to advanced, etc. I interacted with students as well, and because I scheduled these days into my calendar, they indeed, in most cases happened as a priority. I do appreciate the flexibility many of you offered on an as needed basis from time to time.

This year, Donna and I will both be participating in what we have decided to call... "GAME WEEKS!" Here is our plan:

- 1) Departments will be assigned a "Game Week" each trimester
- 2) During that week Donna and I will BOTH get into ALL of the teachers within that department's rooms. In other words, each teacher will have at least one visit by each of us sometime during the week!
- 3) The hours and classes will NOT be predetermined. We will stop into whatever hours/classes we can☺
- 4) The goals are still to see teaching and learning in action!
- 5) The visits are NOT evaluative in nature☺
- 6) Teachers do not need to provide lesson plans as we will consult on-line pacing guides. As ALWAYS, we do expect to see evidence that you have set a focus for your students for the day as we enter your class i.e., objectives on the board, agenda for the day, student learning goals posted...
- 7) Refer to the GHS "Game Day/Week" 2009-10" Sheet for teaching/learning content specifics. (This feedback form will be shared with teachers after our visits!)
