

# GHS GUIDING PRINCIPLES

## GUIDING PRINCIPLES:

- 1) At GHS STUDENT ACHIEVEMENT is the NUMBER ONE priority.
- 2) All students can learn and learning is the most important reason for school.
- 3) We must identify barriers to student academic success and do what we can to address these barriers, and in doing so, we must not enable our student but empower them to be more responsible for their own academic success and PROVE it.
- 4) Teachers must know and embrace the content to be taught and at any given moment be able to answer the following question "How can I prove that I am teaching the curriculum and that my students are learning it?"
- 5) Students and teachers that are happy and safe will be more productive.

*These GUIDING PRINCIPLES are important because all aspects of the plan refer back to one or more of the 5 areas.*
