

ACCEPTABLE USE POLICY ADDENDUM

Wireless Network

Crawford AuSable School District

Personal laptop and internet enabled handheld devices can be used on the wireless network of Crawford AuSable Schools **solely for academic and instructional purposes.**

The school maintains a wired network to secure administrative and instructional functions. The school also maintains a wireless public network. Both networks are filtered for acceptable content. The staff network accounts are only available from wired school computers.

Expectations:

- * The staff/owner must have a signed AUP and follow all conditions and acceptable uses of the network as outlined in the district's Acceptable Use Policy. The owner of the device is solely responsible for the physical security and the network security of the device.
- * The owner is solely responsible and capable of setting up the device on the network and provides all necessary equipment such as battery, power supply, and connections.
- * Staff owned devices should **NEVER** be connected to the school's wired network.
- * District staff will NOT provide technical support and peripheral equipment.

Printing:

Please note that wireless printing is not available at this time.

Solutions:

1. Move your document, with a flash drive, to a network computer.
2. Print at home.

How to connect to the wireless network:

Give this signed form to your building tech. A userid and password will be generated specifically for you that will remain active through the 2011-2012 school year.
